

## **INFORMATION**

The school will operate over two sites from September 2012, one for students age 11 to 16 providing a full range of cooked meals as well as healthy snacks, and one providing cafe facilities for our VI Form Centre for students aged 16 to 18. Expected student numbers are 1,300.

The Catering facility also provides for staff, community users and for booking such as training events.

High importance is placed on locally sourced, high quality ingredients at a very economical price, and excellent customer care skills. The continued success of our school canteen is dependent on increasing up-take of meals and this drives the need for staff hours.
