We are extremely proud of the progress which our students make in the five years that they are with us. There has been a significant improvement in the progress that students are making in English and Maths alongside their other subjects. We are pleased that the hard work of students has been recognised through improved individual and collective whole school results. Overall, 67% of our students achieved 5A*-C, a 7% increase on last year, with 54% achieving A*-C in English and Maths. The Governors and I would like to pass on our congratulations to the students, staff and parents of Bungay High School on the results achieved this year.
